

... Auditing Workshop ...

LET'S AUDIT!

This workshop has been planned to meet the training needs of the accomplished auditor as well as the newer auditor on your team.

We will begin with an interactive training on the purpose of audits and creating an appropriate sample, but then we will shift to a hands-on audit.

Each attendee will be given 10 encounters and during class we will audit, create a spreadsheet, write a report, and articulate our findings for best practices.

8 AAPC CEU (Can be split between all specialty CEUs except CASCC, CIRCC and CPMS)

PRICING FOR YOUR TEAM!
