

Acknowledgement of Audit Findings

CLIENT, contracted with DoctorsManagement consulting firm using NAMAS, a division of DoctorsManagement, in order to perform an audit. The purpose of this audit was to review each individual provider's documentation on a one-on-one basis, specifically identifying weakness based on required documentation guidelines.

Coding Forums were then held with each provider reviewing the specific findings of the audit, and corrective measures required. Each provider was advised of their opportunity to discuss any of the findings with the appropriate staff members of NAMAS, a division of DoctorsManagement.

Furthermore, the providers have been made aware that ongoing auditing of their documentation content and coding will be performed on a consistent basis in order to maintain a high level of compliance for CLIENT.

The undersigned provider is acknowledging and agreeing to the above statements, and is making a commitment to CLIENT, to make the noted changes to their documentation, coding, and billing to increase compliance. The undersigned provider also acknowledges that while their current status is under the umbrella of CLIENT, ultimately each provider is responsible for their own documentation and coding. CLIENT will continue to provide audits, make resources available to each provider, and perform ongoing educational sessions, but ultimately the content of the documentation and the coding produced by each provider is their own responsibility.

The provider noted below is in agreement with the above acknowledgement, and a copy of this form will be maintained within CLIENT Compliance Plan.
